Village Of Lexington

Contractor Requirements for Tree Removal

- 1. Trees to be removed, shall require the stumps ground down to at least six (6) inches below the existing grade of the surrounding area unless otherwise noted.
- 2. Trees to be trimmed will consist of removing dead branches and or be trimmed by other requirements specified by the Village.
- 3. Trees that are to be removed must be taken down with the use of a boom truck or crane. NO trees are to be cut and fell on village streets or a resident's property.
- 4. All branches are to be chipped and the chips hauled to a location outside the boundaries of village property.
- 5. The stump hole and or area around a tree which has been removed or trimmed shall be cleaned of all debris left over from the chipping of the branches or the grinding of the stumps. The stump grindings shall be hauled to a location outside the boundaries of village property.
- 6. The contractor shall haul the larger wood not able to be chipped to a location outside the boundaries of village property for disposal.
- 7. The Village DPW shall fill in the stump holes with topsoil, and plant grass seed around the area of a removed tree.
- 8. It shall be the contractors' responsibility to call MISS DIG to notify utility companies to determine whether or not utility lines or other public utility infrastructure shall be affected by the grinding of stumps to be removed.
- 9. Any damages to private or public property shall be the contractors' responsibility to have any issues resolved.
- 10. At no time shall any private person be allowed to cut wood from village property other than under the direct employment and coverage of the contractor unless authorized by the Village of Lexington.
- 11. Contractors shall comply with all requirements that apply to the operations policy #502-07 adopted by the village before any work shall begin.
