The dredged sand from the harbor will be filled in along with topsoil. Fisher explained some wetlands were found in Lester Park. The Army Corp of Engineers intends the dredging to be done in 2-3 weeks. They are planning to start early summer of 2025. Discussion followed.

There will be a concession stand area with separate space for food trucks. The round about is staying where it currently is. A new wooden walk way will tie together with the current boardwalk. Next month Fisher will have a slide presentation. The work is due to begin spring of 2025. Discussion followed.
