- A. DUMP TRUCK / SALTER / PLOW TRUCK – Motion to authorize the Village Manager to bid / purchase a 2013 Freightliner 108SD Dump Truck for a do not exceed amount.

PUBLIC COMMENT

ADJOURNMENT

April 16, 2024

To: Village of Lexington Council

Re: Dump Truck / Salter/ Plow Truck

Dear Council,

It has been brought to my attention that on a local municipal bid website, there is a dump truck/salter/plow truck that has recently been listed for sale. This particular truck with accessories would check all of the boxes and more, of what we would want for the replacement of our current 1998 model year truck. On the following pages you will find the current bid price of the truck in question, at the time of this letter, and prices of other comparable trucks with less options and accessories currently listed for sale. The utilities department has had this on the capital equipment purchase list and it was scheduled to move forward with a purchase in the 24-25 fiscal year.

We had planned on the cost of a replacement truck being upwards of \$90,000 or more, which this opportunity could provide substantial savings. Previously when we replaced these vehicles in the past, we had the trucks built from the chassis up, adding a dump box, underbody scraper, front plow, and salter. The reason for this is generally these trucks are hard to find in this configuration, and if you can find one, they are generally at the end of their life cycle. This truck appears to be an extremely well taken care of machine, from a municipality that has funds to upgrade to a brand-new truck before it reaches its life expectancy. We feel that this unit could more than fulfill our needs for many years to come.

The listing municipality has confirmed that the only reason for getting rid of this vehicle is because it has reached the age in which they replace equipment. They stated that it was fully used in the last snow storm of the season and has no known issues or needs. They also stated that the engine emissions system has been completely upgraded within the last few months.

Pending a full inspection and operational review by utility department staff, I would like to recommend that permission be given to bid on and purchase the listed Freightliner 108SD Dump Truck for up to \$60,000.00, with an optional additional expenditure of up to \$10,000.00 to take care of any minor repairs, if needed, and to have any rust repaired and repainted on the frame and undercarriage, for a total of up to \$70,000.00. Funds will come from the capitol equipment fund.

Sincerely,

Christopher M. Heiden
Utilities Manager

#74303 | 2013 Freightliner 108SD Dump Truck

Sold by City of Rochester Michigan

Current Bid:

\$17,450.00
