Seaway Proposal # 09-11-22

Mr. Bender,

Thank you in advance for allowing us to quote your painting needs. I have reviewed your RFQ and have worked up a Bid. Work to be completed in 2 Weeks (Early May).

### Scope of Work:

- MDOT ROW will be required which may result in reduced working hours per day
- Clean and sand the poles with air powered and hand tools to remove any loosely adhering coatings.
- Application of primer to the entire Pole. Primer will be Sherwin Williams Kem Kromic applied by Brush and Roller.
- Application of 2 coats of topcoat to the entire pole using Sherwin Williams Acrylic DTM in Gloss Black. Application by Brush and Roller.

### Bid Unit Pricing

Description	Quantity	Unit Price	Total
Poles if Done in 2 Phases	74	327.00	24,198.00
Poles if Done all at once	74	297.00	21,978.00

### Requirements:

- All banners and flower baskets must be removed by the Village prior to Seaway Painting performing the work.
- The only traffic control that Seaway Painting will provide is one arrow-board, some grabber cones, and a sign saying crew working ahead and right lane closed ahead. Any additional traffic control or signs will need to be supplied by the city.
- Paint will take approximately 7 to 14 days to obtain the final curing of the coating so it is recommended not to attach anything to the poles until they are cured. Usually it would take less than 7 days, we will just have to see. (Dependent on Weather) Please do not reattach banners or baskets until final cure.
- It is assumed that work hours will not be restricted if work is done on the weekends. We would prefer to work weekends since traffic may be lighter. We would like to start earlier in the morning too to miss the later traffic.

Hoping the above meets with your approval. If you have any questions please give me a call. Please let me know if approved and what time frame you would like to have the poles painted.

Sincerely,

Bill Loughrey
