

DDA Website Strategy Statement for 2020

The Lexington DDA is in planning mode this year in concert with the new master plan being developed for the whole community. A new development plan will be written this fiscal year that replaces the 1986 plan and will implement new work that furthers the interests and values of our citizens, as revealed by the master planning process.

In the meantime, Authority members are in agreement with the goals and ambitions that previous year's budgets supported and they will support them again in the 2019-20 budget year: downtown flowers, financial support for the sponsoring groups of civic events, a \$10,000 donation toward the library expansion, a \$16,000 expenditure to complete renovation of the Washington Street tennis court, Downtown internet service, \$20,000 toward building facade improvements, Christmas decorations.
